

28TH IFHE INTERNATIONAL CONFERENCE

IFHE 2024

Patient Centred Healthcare Engineering Design

15 - 17 OCTOBER 2024 - CAPE TOWN, SOUTH AFRICA

CALL FOR EXHIBITORS

The **International Federation of Healthcare Engineering** event gathers senior people from around the world involved in the provision of healthcare services to seek ways to improve healthcare service delivery.

The Purpose of the conference is to share successes and find solutions to outstanding challenges specifically around the above-mentioned topics.

The Covid-19 pandemic highlighted the need for better awareness, preparedness and closer collaboration between the public private sector and the medical staff and infrastructure professionals. It highlighted our vulnerability to global trade and the need for improved early recognition of threats and coordination of resources to combat them.

We will take a holistic view of our healthcare services by analyzing where we are today, and what is required to shape a sustainable and adaptable healthcare infrastructure for the future. We will delve into the latest trends in infection prevention and control, design and construction, the changes required in management and operations, advances in technology, and explore the ways in which we can work smarter to improve healthcare service delivery and reduce costs.

The conference aims at the following sectors:

- › Hospital CEO's, Senior Managers & Hospital Clinical Managers
- › Nursing Managers, Senior Nursing & Medical Staff
- › Technical Managers, Hospital Engineers & Maintenance Personnel
- › Health Service and Facilities Planners, Administrators & Managers
- › HR and Training Managers
- › Architects, Designers & Quantity Surveyors
- › Infrastructure Equipment Suppliers & Specialists
- › Clinical Engineering Practitioners & Technicians
- › Medical Equipment Suppliers & Specialists
- › Information Technology & Communications Specialists
- › Health, Safety & Security Specialists

CALL FOR EXHIBITORS

An exhibition will run alongside the conference, offering suppliers an outstanding opportunity to meet and network with delegates and key executives in healthcare from around the world, Africa and South Africa. It provides an avenue for suppliers to expand their marketing reach into Africa, and build and nurture those vital long-term relationships.

In the past, the exhibition has always sold out, so it's important to book your preferred stand early.

Exhibition space:	Available in variable sizes
Stand Package Cost:	R4 750 ex VAT per square meter Including shell scheme, carpets, lighting, fascia name board and power point.
Space Only Cost:	R4 250 ex VAT per square meter
Build-up: 14 October 2024	from 10:00
Open: 15 October 2024	12:30 - 19:30
Open: 16 October 2024	08:30 - 17:30
Open: 17 October 2024	08:30 - 14:00
Breakdown: 17 October 2024	14:00 - 22:00
